	• $2,100 for (PhD) ---------- (I: $255, S: $220)
	  • *Savings of $240 (equal to approx. 1 free session)*

# Of Sessions	Comprehensive package of 10 prepaid solution focused therapy sessions (9 sessions + 1 complimentary).
Package Description	**WHAT:** Over the course of 10 weeks, this Quick Lift package offers short term treatment that focuses on present life issues, solutions, and prevents things from getting worse. Therapy sessions in this package are structured and supportive. **WHO:** This Package is designed for individuals with acute mental health concerns who need immediate solutions to situational crises. This package can help clients identify 1 main problem, action plan and shift their sense of hopelessness to a place of agency over their life. This package is also great for clients who are skeptical about therapies effectiveness as well as clients dealing with: Depression, Anxiety, Grief, Stress, Relationship issues, Substance use disorders, Legal problems, Job transitions, and financial concerns. **HOW:** Our skilled therapists create a supportive and nurturing environment, helping clients to address and overcome short-term challenges. Through personalized care, clients will build immediate coping strategies and tools to enhance emotional resilience and foster personal growth.

Package Inclusion	• **Initial Intake Session:**
	  ○ Duration: 50 to 60 minutes
	  ○ One scheduled initial intake session scheduled within the first week
	  ○ Comprehensive assessment to understand client's needs, goals, and history.
	• **Prepaid Follow-up Psychotherapy Sessions:**
	  • Duration: 45 to 60 minutes per session
	  • Nine scheduled sessions following the intake session.
	  • Tailored therapy sessions to address personal challenges, foster resilience, and promote psychological well-being.

# Of Sessions	Comprehensive package combining prepaid 4 monthly sessions of Medication Management and 8 comprehensive Psychotherapy services.
Package Description	**WHAT:** Our Integrated Care Package offers a combination of psychotherapy sessions and ongoing medication management to ensure a well-rounded approach to mental wellness. **WHO:** This five-month comprehensive package is designed for individuals seeking a balanced approach to mental health care that combines both psychotherapy and medication management. It provides holistic, integrated support, targeting the client's specific therapeutic goals and medication needs. Ideal for those looking to enhance their mental well-being through a personalized plan, this package includes regular check-ins to monitor progress, adjust treatment as needed, and ensure continuity of care. With a focus on both immediate support and sustainable improvement, this package offers a robust foundation for lasting mental health. **HOW:** Tailored to meet client's unique needs, our experienced therapists and psychiatric providers work together to create an integrative treatment plan that supports both client's emotional and physical well-being. By combining talk therapy with personalized medication management, this package provides continuous support, helping clients manage symptoms, develop effective coping strategies, and achieve long-lasting mental health stability. With consistent guidance, clients experience a transformative journey toward emotional resilience, improved functioning, and personal growth.

Package Inclusion	• **Initial Intake Session:**
	  ○ Duration: 2 hours (1 for Med Mgt and 1 for Psychotherapy)
	  ○ Two comprehensive assessments scheduled within the first week
	  ○ This comprehensive assessment is designed to evaluate medication needs and treatment goals, providing a thorough understanding of the client's psychotherapeutic needs and objectives.
	• **Prepaid Follow-up Psychotherapy Sessions:**
	  • Duration: 45 to 60 minutes hour per session
	  • Nine scheduled sessions following the intake session.
	  • Tailored therapy sessions to address personal challenges, foster resilience, and promote psychological well-being
	• **Monthly Follow-up Medication Management Sessions:**
	  ○ Duration: 30-mins per session
	  ○ Four monthly sessions scheduled one month after the intake session
	  ○ Includes monitoring of medication efficacy, adjustments to prescriptions as needed, and ongoing support.

Marital Counseling Packages

HONEYMOON PACKAGE	
Rate	• $1,400 - **Save $150 (approximately 10% off)! NEW RATE**
# Of Sessions	Package of 7 prepaid Pre-Marital Counseling Sessions (including Intake Session) at 60 minutes per session.
Package Description	**WHAT:** The Pre-Marital Counseling Package consists of 7 prepaid sessions designed to help couples establish a solid foundation for their future together. Over the course of these sessions, couples will engage in a comprehensive exploration of conflict management, effective communication, financial responsibilities, parenting, and extended family roles, aligning with Georgia's Qualifying Premarital Education requirements. **WHO:** Ideal for pre-engaged couples [dating] looking to explore the idea of marriage and engaged couples who are headed towards the aisle, this package benefits those looking to build a strong, healthy partnership through proactive relationship skills. Couples who want to enhance their communication, understand each other's goals and expectations, and gain tools to navigate common relationship challenges will find this package especially helpful. Additionally, this package provides a practical option for couples seeking a premarital counseling certificate, allowing them to obtain a marriage license at no cost through their county's probate court. **HOW:** Starting with an initial intake session, our skilled counselors conduct a thorough assessment to understand each couple's unique history, needs, and goals. Through six subsequent counseling sessions, couples will learn and practice techniques for resolving conflicts, communicating openly, and addressing areas like finances and family roles. At the end of the program, couples receive a notarized certificate of completion, supporting both their relationship growth and legal requirements for marriage.

Package Inclusion	• **Initial Intake Session**:
	  • Duration: 50 to 60 minutes
	  • One scheduled initial intake session scheduled within the first week
	  • Comprehensive assessment to understand couple's needs, goals, and history.
	• **Prepaid Follow-up Couples Counseling Sessions:**
	  • Duration: 60 minutes per session
	  • Six couples-counseling sessions that covers conflict management, communication skills, financial responsibility, child and parenting responsibilities, and extended family roles per the requirements outlined by Georgia for Qualifying Premarital Education.
	  • Couple will receive notarized certificate of completion that can be taken to the probate court in client's county to get marriage license at no charge.

DESTINATION PACKAGE	
Rate	• $2,500 - **Save $280 (approximately 10% off!) NEW RATE**
# Of Sessions	Package of 13 prepaid Pre-Marital & Post-Marital Counseling Sessions (including Intake Session) at 60 minutes per session.
Package Description	**WHAT**: The Destination Package offers a comprehensive journey through 13 prepaid counseling sessions, tailored for couples who want to invest deeply in their relationship's long-term success. This package combines pre-marital and post-marital support, covering topics from conflict resolution to spiritual values, with the option to include a meaningful vow exchange or renewal ceremony. **WHO**: This package is ideal for both pre-engaged and engaged couples looking to solidify their bond before marriage, as well as couples who want to enrich their relationship by strengthening core skills. It is especially suited for those eager to deepen their connection as they merge their lives, explore expectations, and align on shared values. Couples committed to creating a strong foundation and gaining tools to navigate complex dynamics—such as health, family roles, and intimacy—will find lasting value in this package. **HOW**: The process begins with an initial intake session, where a comprehensive assessment allows counselors to understand each couple's unique history, relationship goals, and aspirations. Through the remaining 12 sessions, our counselors guide couples through in-depth discussions on essential areas, including marital expectations, relationship roles, health and wellness, spirituality, family dynamics, and intimacy. With a supportive framework, couples build relational skills that foster growth, resilience, and a shared vision for the future. Upon completion, couples receive a notarized certificate of completion, meeting the state's requirements for a marriage license at no charge, as well as an option for a symbolic vow exchange or renewal ceremony.

Package Inclusion	• **Initial Intake Session**:
	  • Duration: 50 to 60 minutes
	  • One scheduled initial intake session scheduled within the first week
	  • Comprehensive assessment to understand couple's needs, goals, and history.
	• **Prepaid Follow-up Couples Counseling Sessions:**
	  • Duration: 60 minutes per session
	  • Thirteen prepaid couples-counseling sessions:
	  • 6 of the sessions meet the state of Georgia requirements for pre-marital therapy certification) and can include a vow exchange or renewal of vows for the couple upon completion.
	  • The sessions cover areas in Honeymoon Package PLUS Any of the following content areas: marital expectations, relationship roles, health and wellness, spiritual beliefs/relationship values, family or origin dynamics, sex and intimacy.
	  • Couple will receive notarized certificate of completion that can be taken to the probate court in client's county to get marriage license at no charge.

Psychological Evaluation Packages

DISCOVERY PACKAGE	
Rate	$3,300 - **Save $450 (approximately 10% off)!**
# Of Sessions	Comprehensive Package of 15 prepaid hours of psychological evaluation discovery (including Intake Session) and inclusive of all 4 phases that covers clinician oversight, materials, results of the test, the interpretation and the report.
Package Description	**WHAT**: The Discovery Package is a comprehensive psychological evaluation program, offering 10 to 15 hours of in-depth assessment, including an intake session and four phases of evaluation. This package includes clinician oversight, testing materials, interpretation, and a detailed report. Using standardized tests, observations, and proven assessment methods, this package is designed to uncover and diagnose mental health conditions such as depression, anxiety, and bipolar disorder, assess behavioral and cognitive functioning (including ADHD and intellectual capabilities), and provide insights that form the basis for personalized treatment plans and accommodations. **WHO**: This package is ideal for individuals seeking a thorough psychological evaluation to understand their mental well-being and overall health across various areas. It is particularly beneficial for those needing: • Psycho-Educational Evaluations: Assessments of cognitive, academic, social-emotional, and behavioral functioning for children, adolescents, and adults. • Substance Abuse Evaluations: Insights into substance use and its impact on life and functioning. • Parental Fitness Evaluations: Readiness and capabilities assessments for prospective or current parents. • Domestic Violence Evaluations: Understanding the impact and severity of domestic violence experienced. • Psycho-Emotional Evaluations: Assessment of emotional health, including mood disorders, personality traits, and psychological disturbances. • Psycho-Sexual Evaluations: Evaluations in cases of sexual misconduct to assess risk factors and behavioral patterns. • Trauma Assessments: Exploration of trauma's impact on mental and behavioral health. • Bariatric Pre-Operative Evaluations: Pre-surgical assessments for those considering bariatric surgery or weight loss programs. **HOW**: The Discovery Package begins with an intake session to establish the individual's unique background, needs, and goals. Across the following sessions, our clinicians conduct a phased evaluation covering multiple domains through standardized tests, observations, and comprehensive analysis. This approach helps uncover the root causes of long-standing symptoms and provides valuable insights for developing effective treatment strategies. Upon completion, clients receive a detailed report that can be

	shared with mental health providers and other relevant professionals, often bringing relief and clarity by answering critical questions about their symptoms and guiding access to necessary services and accommodations.
Package Inclusion	• **Phase 1: Intake Session** ▪ **Duration:** 1 - 1.5 hours (client phasing) ▪ Face-to-face intake session ▪ Initial intake session includes determining presenting problems, discussing the client's history, and assessing client issues. ▪ Scheduled within 3 - 5 days. • **Phase 2: Testing Session** ▪ **Duration:** 3 - 6 hours (client phasing) ▪ Face-to-face testing session ▪ Includes comprehensive psychological / psycho-educational testing based on the intake session and tailored to the client's needs. ▪ Scheduled 1 week after intake. ▪ Includes the cost of testing materials. • **Phase 3: Data Analysis and Report Write-up** ▪ **Duration:** 5 - 6 hours ▪ Detailed analysis of test results and comprehensive report write-up. ▪ Conducted by the doctor, no patient presence required. • **Phase 4: Feedback Session** ▪ **Duration:** 1 hour ▪ Face-to-face feedback session ▪ Scheduled 2 weeks after testing session. ▪ In-depth review and explanation of the results. ▪ Discussion of recommendations and next steps.
